VBOX News 5.0 VERSION

Playout for News and Live Studios

MOS Compilant

News never stops, and neither should your newsroom. With VBox News, studio playout meets ultimate flexibility, allowing editors, producers, and journalists to focus on what truly matters—delivering impactful stories. VBox News is the solution for the production of news and live programs.

- **Double Playlist Control:** Manage multiple rundowns and spontaneous clips simultaneously, offering unmatched flexibility for live programming.

- **Shotbox for Instant Playback:** Speed is everything in live news, and with dedicated keyboard support, triggering video clips is faster and more intuitive than ever.

- **On-Air Manual Control & Voiceover Countdowns:** Real-time adjustments let operators pause, stop, or restart content on the fly—because live TV is unpredictable.

- **HTML5 Plugin for NCRS:** Journalists can now place graphics, captions, and elements directly into the rundown, executed flawlessly during playback.

- **Videowall Control at Your Fingertips:** Synchronize auxiliary videos for dynamic, eye-catching studio presentations with ease.

- **Manual or Automatic Modes:** Adapt your studio workflow to each program, from fully staffed prime time news to lean operation in late night bulletins.

- **NCRS Text Integration:** Always in control reading the countdown to the end of the track, the stand up or the anchor's vo, and knowing all the out-queues in advance.

- **No Limits of Outputs:** Bring to the mixer, videowall and auxiliary equipment as many signals as you need with A/B roll, A/B/C roll or single video, all of them with line grouping, loop and line con-
